SUBJECT

Provision for the Hobli School
Buildings

Indexed P. Raghunath

Genl- Secy

5(a) III Note ~~8/1~~

(Report put up)
for 1895/96

The question of accommodation has engaged the attention of the Inspector General ~~more remarkably~~ ^{ever since} ~~from~~ 1895/96. In para 33 of the Report on Public Instruction he has devoted one full page ~~for~~ ^{to} this subject showing the necessity for more accommodation. He has also stated in the concluding portion of the said para ^{that} "At present there is a great want felt of more accommodation in every district. I hope to submit shortly a separate memorandum on the subject of accommodation for the orders of Govt."

This was done in Nov 97 and the Jgl estimated the requirements for buildings at a cost of Rs 1,70,19 chargeable to the Village School Fund and of Rs 2,45,024 to the State Funds. Govt while passing orders on his memorandums informed the Inspector General that Govt are not prepared to at once pass final orders on his exhaustive programme of school buildings to be constructed, that suitable provision for the more urgent buildings chargeable to state funds

Programme printed with order no $\frac{7129}{2028}$ 218114/5
C 34-97) (printed copy put up)

10² ✓
that he proposed by him from
time to time in his annual
Budget, which will be duly
considered and dealt with
by Government along with the
requirements of other depart-
ments of the State, and that,
while expressing their inability
to make any special State grant
for village school buildings, Govt
will not object to proposals being
made in the village school
Fund Budgets of the next and
succeeding years for the utilization
of so much of the Cash balance
at the Credit of the village school
Fund as can be usefully spent
upon the construction, extension,
and improvement of village
schools."

(see printed copy put up)

Even before the Govt informed
the Dy. as above, he submitted
two lists of schools which should
be urgently provided with buildings,
one from the State Funds at a
cost of Rs 54,349 including
the Budget allotment ^{& Rs 10,000} for that
year (1897-98) of Rs 10,000 and

the other from the village school
 Fund at a cost of Rs 17,373
 including the Budget allotment
 of Rs 6,578 Govt sanctioned
 only Rs 5000^x from the State Fund.
 during that year (97-98) and
 raised the grant of Rs 6,578 for
 Buildings in the village school
 Fund Budget to Rs 17,439 of which
 Rs 10,861 was made payable
 from the Cash balance at the
 credit of the village school Fund
 then available And the Inspector
 General was asked to submit -
 statements for the information
 of Govt to show how the grants
 were utilized No such statement^x
 seem to have been received

* nothing in the file
 No 20-76 put up

During the last year 1898 1899
 the Inspector General prepared
 two lists, as usual of schools for
 which accommodation should
 be provided, one from the State Fund
 at a cost of Rs 62,474 including
 Budget provision of Rs 30,000 the
 sum allotted for that year and
 the other from the village school
 Fund at a cost of Rs 37000, includ

This only required because now the
 sum as affecting State Fund having
 been already disposed of

the ~~Budget~~ provision of Rs 10,000
These ~~justs~~ were pending ^{for a long time} before
the Govt without orders from
however At the close of last year,
however, a sum of Rs 5000 was
sanctioned ^{from the State Funds} to meet the immediate
requirements of the works under-
taken by the D O W and the Dfl
was informed that his application
for an increase of grant for
buildings will receive due
consideration of Govt in connection
with the Budget for 1899-1900

This has been finally settled
the other day the grant made
from the State Funds for 1899-1900
being Rs 30,000 as in the last year

As regards the proposed additional
allotment for buildings from the
village school fund for ^{the} last year,
Govt observed ⁺ that it was too late
~~at~~ ^{Grant} the close of the year) to deal with
the proposal of the Dfl and ⁺ the Dfl
was therefore requested to submit
fresh proposals for the consideration
of Govt in connection with the Budget
for the current official year (99-1900)

The Dfl has submitted accordingly
proposals for 1899-1900 at an

put up Docket No 1439

(9) (A) Note

8

The approved designs of Mr C T Dalal having been found to contain "Engineering defects", the Inspector General was asked to carefully revise the new designs prepared by Mr Harve and to reduce the estimates to the lowest possible limit and to address the Galt again on the subject.

The Report called for from the Igl will be awaited, as the present communication shows that the matter has been disposed of in the B N D.

The letter of the Chief Engineer is in reply to his office booklet No. 5605 of the 14th Nov wherein ^{Ed 200} the Chief Engineer was requested to expedite the question of designs referred to above.

The Igl will now be able to allot out of the provision of Rs 40000/- in the Village School Fund Budget, the amounts required for all items of Building works from Village school Fund, as required, in font

Please draft accordingly - today - H.R. 18/12/99

This was communicated to the Sgl in Govt Pro No 1945-46 d 11 8 99 & the Sgl was requested to submit a detailed statement showing the appropriation that would be required out of this provision

- (1) for meeting the cost of annual repairs and alterations to the existing buildings
- (2) for completion of buildings in progress and
- (3) for erection of new building

The statements furnished with sl 7 and the present communication contain the information wanted. The statements of appropriations have been put together in the accompanying Tabular Statement

Subd

H.R.

13-12-99

Subd. P. S. S.

The following appropriations //
may be approved -

1. For incomplete buildings } Rs
including minor works } 3,365
& repairs
 2. New buildings as } 20,416.
detailed in the office
statement (marked a)
- (b) — do ——— (- do - b) 16,219
40,000

The works for which Rs
3,365 ~~have been~~ ^{are proposed for} appropriated
as above may be proceeded
with, as they appear to be
within the S. G. S. powers

of sanctioning
of the 2nd item of Rs
20,416, works costing
Rs. 1823 (minor works &
repairs) & Rs 8595 (major
works) have already been
sanctioned. The new
building for Golden School

he will have time to
work out Rs. 11,486 this
year if possible on the
above works

yes

yes

resting Rs 1068 accor-
-ing to the approved
design No II may now
be sanctioned. as recom-
mended by the G.O.
The balance of Rs 8930
may be reserved for
major works which
are outside the scope
of the approved design
of the 3rd item of
Rs 16,219. The G.O.
proposes to utilise
the amount towards
no less than 4 new
major works planned
according to approved
designs. The G.O.
applies that these
works may now be
sanctioned and
~~that he may be~~

He expects that altho these 13
works would entail
a total cost of Rs.

37,392, his expenditure
on them may not exceed
Rs. 16,219 above shown
as the available balance.

for the remaining 36
months of the current
year. It would be
desirable I submit,
that only a select few
of the 41 works should
be sanctioned.

At this point a further
report may be called for.

There seems no objection
however to approval being
now conveyed to the amount
of Rs. 16,219 being appropriated
for this class of works generally.

There is sufficient money
for appropriation
this year on account
of all these works,
most of them ^{which} are
not likely to be
completed this
year. The balance
required may
be met from the
next year's grant.

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE

No

3285
121

Mysore, 11th October 1898
with enclosures

From

H J BHABHA Esq.,

Inspector General of Education in Mysore

To

The Secretary to the Government of Mysore,
General and Revenue Departments.

SIR,

In continuation of para 8 of my Memo on the Village School Fund Budget Estimates accompanying my letter No 1540⁴⁶ dated 16th August 1898, I have the honour to forward herewith a list of school buildings which it is contemplated to take in hand during the current official year if Government will be good enough to sanction sufficient funds. The list is intended to show the probable requirements of the year. As each building is taken up the estimate and appropriation for the current year will be settled with greater exactness than at present. The works sanctioned last year are estimated to cost Rs 7,291. The cost of constructing a Kannada ~~Practising~~ School attached to the

3

Mysore Normal School is included in the Village School Fund Budget as the two old buildings at present in use for the Normal School may be considered to be State Fund Schools, and the Normal School trains teachers for both State Fund and Village Fund Schools. For most of the Village Schools which are included in the list of new buildings required, subscriptions have been collected and paid into the Treasury to the credit of the Village School Fund.

The total cost of the buildings proposed to be taken in hand is estimated at Rs 37,637 for the current official year, but from various causes a considerable portion of the sanctioned amount always remains unspent at the end of the year, and so it will in the present case. The cash balance at the credit of the Village School Fund on 30th June 1898 is roughly estimated by the Comptroller at Rs 3,49,570. This sum includes Rs 2,00,000 invested in Government of India paper. Under these circumstances with reference to Order No 7129-Ed 208 dated Bangalore 18th December 1897 I would recommend that

Government may be pleased to sanction a provision for buildings of Rs 37,000 in the Village School Fund Budget for 1898-9 which is before Government.

I have the honour to be,

Sir,

Your most obedient servant,

H J Bhabha

Inspector General

Remarks

locks —

As the main building of the school and the old Headmaster's quarters which are both State Funds buildings are given for the use of the school the new Kannada Practising School may be paid for from the Village Sall.

The Dy Commissioner points out that it is inconvenient to continue the school in a Devy's temple where it is now held. A sum of Rs 1,000/- raised by subscriptions is invested in the Savings Bank & the Sub-Dn Officer, Sagar says that if Govt sanction amount a decent building could be erected for the school. The members of the Fund have resolved to give 1,000 Rs towards the cost of construction of the school house proposed. This request is awaited. A plan and estimate not to exceed 2,000 Rs have been called for from the Executive Engineer, Shimoga Dn.

This work was proposed to Govt in 1897-8 and a plan and estimate according to prevailing rates at this station for the various items of the work have been received from the Ex Engineer, Madhav Dn as requested by GO No 13423. This estimate includes the contingent and Dn establishment charges. This estimate exceeds that for the extension of the school building by only Rs 17.

This work was proposed to Govt in 1897-8 in this office letter No 90713 of 14-9-98 and the estimate of Rs 1063/- submitted for Govt sanction was not approved, as Govt thought that a building of the 2nd North Sall Design would suffice for the school as proposed by the Insp General in the list submitted with the General Programme of School buildings.

The Dy reports that the village is a large & important one & that the people have contributed Rs 100 towards the erection besides granting a building site worth Rs 150. The school is now held in a temple very inconvenient for the school purpose. Rs 150 was entered in the General list for a Katcha building.

The strength of the school is 43. A building of the 1st Design with a verandah as entered in the General list. Rs 26 was recovered by the sale of the old materials of the former school house. The school is now held in a temple which is not suitable for the school purpose. The people's contribution is expected to be Rs 150.

13	Do	Constructing a school house at Hosahalli - Dod Ballapur Taluk	Do	400.
				<u>4,444</u>

(continued)

The school is now held in a house belonging to the Jain Math. The Swami of the Jain Math has promised to contribute 750 Rs towards the cost of constructing a new building on the supposition that the estimated cost will be Rs 3,000. The payment of the promised contribution of Rs 750 has been sanctioned by G.O. No. 729-31 of 17-12-97. This was entered in the General list of buildings ^{entry of 17-95}. The plan & estimate are yet to be prepared. The strength of the school is 73 & the highest class maintained there is the IV.

The Deputy Inspector reports that the people have subscribed Rs 50 towards the cost of the new building. The school has a roll of 26 pupils. The present building is C but which is very inconvenient for the school purpose.

The Admin. points out that on the 31st Dec 1897 there were 154 pupils in average attendance, that the square area available in the school is 1060 sq/ft and that an additional building is necessary for the school. The highest class is the V.

The school is now held in a temple which is unsuitable for the progress of the children. The Deputy Inspector reports that the villagers are ready to contribute 250 Rs and recommends the erection of a building at a cost of Rs 750/-. The strength of the school is 57.

The Deputy Inspector reports that the villagers have deposited 100 Rs in the Public Treasury at Channarayana towards the erection of a new building. The strength of the school is 29.

The Deputy Inspector recommends the erection of a building in this village for the use of the High School at an estimated cost of Rs 175 and reports that if 80 Rs be contributed by Govt. the villagers will carry out the work of the new construction. The strength of the school is 25. A building of the I Design with a verandah was put down for this school in the General list of buildings.

The school is now held in the Ashokkhana very inconvenient for the school work and the people have contributed 50 Rs towards the cost of a new school house required in this village.

Remarks

(Continued.)

The Deputy Inspector recommends the extension of the building at an estimated cost of Rs 229 for the accommodation of the Hindu School in this village as this school is at present badly accommodated in the Ashurkhana. The strength of the Hindu School is 18.

The Deputy Inspector reports that the school is attended by 50 pupils, that the 106th School here is an important one and that the people have contributed Rs 150 towards the cost of the new construction. The amount of the contribution is in deposit at the Chetaldroog M. Treasury.

The Patel of the village says that it is not convenient to hold the school in the Basavanna Temple as it is frequented by serpents, and that out of the people's subscriptions amounting to Rs 41 in his hands Rs 40 was advanced for the purchase of stones required for the new building. It has been stated that the people can't pay any more subscriptions & that the materials now ready for the building are valued at Rs 33-8-0. The Patel promises to complete the Dehl house of 4 Anknamas in 30 Rs is sanctioned by Govt as a grant in aid & says that if a building of 6 Anknamas is required as proposed by the Honr. 20 Rs extra for stones & 40 Rs in addition for Cooli etc are required from Govt. The Amildar sends an estimate for Rs 362/- for a new building.

The people's contribution of Rs 80/- has been paid into the Treasury. The strength of the school is 28.

The present school house was put up at the cost of the Patel on a site belonging to Govt. As the building was claimed by him for his occupation Rs 300/- fined by the Amildar for the value of the site was recovered from the Patel & paid into the Treasury as reported by the Amildar. This amount is available for expenditure. The strength of the school is over 60 as reported by the Deputy Inspector.

The strength of the school is 82 & the average attendance 65. The present house is not suitable for the purposes of the school. The materials of the present building are estimated to fetch 100 Rs when sold.

The Deputy Inspector reports that a building is necessary for this school, which contains 40 pupils and that after better accommodation is provided the number of pupils will increase.

Notes (continued.)

The school has a roll of 25 boys & 4 girls. The average daily attendance is 20. The Deputy Commissioner, Madurai points out the necessity for a school house in this village & states that the people are willing to contribute one-third of the cost of the school house.

The number on the roll is 82 and the average attendance 73. The Deputy Inspector proposes the new construction, the present building being utilised for the girls' school here. A building to accommodate 100 pupils is necessary.

The Deputy Inspector points out that a school building is absolutely necessary in this village. The plan and estimate prepared by the Amildar for Rs 500/- are ready. Of the people's subscriptions of Rs 190, Rs 171-9-6 was paid into the Treasury, 6 Rs was spent on purchasing the building site & Rs 12-6-6 was spent on clearing and leveling the site. The school is now held in a tented house ^{of the village} very inconvenient for the working of the school. The strength is 313.

The school is now held in a stone mantapa belonging to the Shankhag Hampannaya. This building has been sold & is not available any more for the school. The Deputy Inspector reports that no suitable building is procurable in this village for the use of the school & the erection of a new building is necessary. The people have contributed Rs 183 towards the cost of the new construction. The strength of the school is 557.

There are 73 names on the rolls & the average daily attendance is 59. The school is now held in a mud house occupied by the school, the Revenue Chavadi and the Police Station. The people have contributed 200 Rs towards the cost of building a new house which is very necessary.

The strength of the school is 440. The people have contributed 100 Rs for a suitable building. Site has been selected as indicated by the Amildar. The present building is unsuitable.

The people's contribution amounts to Rs 215 & the strength of the school is 45. As the present house is unsuitable for the purpose, of the school a new building is necessary.

1989

Remarks

9

(continued)

The school is now held in a thatched hut which is quite unsuitable for school purposes. The people have contributed Rs 150 and are willing to pay 100 Rs more towards the cost of the new building after the work is begun. The Deputy Inspector sends an estimate for Rs 1256. The strength of the sch is 53.

The strength of the sch is 28. The sch is now located in a temple exposed to wind & rain. The Deputy Inspector reports that a subscription list amounting to Rs 100 has been opened.

The strength of the sch is 70. The present house which is not suitable for the sch will be sold.

The strength of the sch is 103. The school is now held in a stone built temple quite unsuitable for the purposes of a school. A new building is necessary for this flourishing school. A contribution of Rs 150 has been promised to be paid and the Deputy Inspector reports that a portion of this amount has been collected.

The strength of the school is 64 and the school is now held in a temple unsuitable for the school purposes. The people have contributed Rs 151-80 towards the cost of the new building.

{ The strength of the school is 62. The villagers have contributed 139 towards the cost of the new building required. The school is now held in a Musafarkhana which should be vacated shortly.
 { There are 53 names on the roll and the people's contribution paid into the Treasury amounts to Rs 166-0-0. The temple where the sch is held is unsuitable.
 { The strength of the school is 52 and the people's contribution amounts to Rs 100. The school is held in the verandah of a temple.
 { The strength of the sch is 45 & Rs 170 has been contributed by the people towards the cost of the new building. The sch is now held in a temple ill-suited for the sch purposes.

m

H J IHALIA Esq.

Inspector General of Education in Mysore

To

The Secretary to the Government of Mysore
in the Revenue and General Departments

SIR

With reference to order no $\frac{14393}{2272096}$ dated 22nd June 1899
I have the honour to inform you that during 1898-99 no
new work of any importance has been carried out from
the Village School Fund Budget I submit herewith a
list of new works that it is ^{desirable} to undertake in 1899-1900.
The total estimated cost is Rs 75880 of this amount
Rs 5000 may as usual be provided in the Village School
Fund Budget for repairs minor works and lapses of
appropriations sanctioned in 1898-99 Of the remainder as
much as Government are pleased to sanction will be
payable in accordance with order no $\frac{7129}{22208}$ dated 18th Dec
1897 from the cash balance at the credit of the Village
School Fund which is estimated to be Rs 317,961 on the
1st July 1899. About 34 villages have contributed

Small sums towards the cost of school buildings which have been credited to the Village School Fund. These villages have been included in the list sent herewith. None of them has been provided with a school building yet and the people have been frequently complaining of the delay in granting them school houses. The estimated cost of all the buildings named in the list appears to be large, first because no new buildings were erected in 1898-99 and very few for several years past; and secondly the cost of Village School Houses as revised by Mr. Karve is very greatly in excess of the cost estimated by Mr. Dalal. I have adopted Mr. Karve's figures, as the buildings designed by him are substantial, free from engineering defects and good in appearance. I beg to refer you to my letter No $\frac{10129}{1372}$ dated 14th June 1899 on the subject.

			3700

School Fund -

appropriation during the official year 1899-1900 14

Remarks

The number on the roll is 36. The Deputy Commissioner points out that it is inconvenient to continue the school in a Devy's temple where it is now held. A sum of Rs 1000/- raised by subscription is invested in the Savings' Bank and the Sub Division Officer Sagar says that if Government sanction 1000 Rs in addition to the subscribed amount a decent building could be erected for the school. The Committee of the Fund has resolved to give 1000 Rs towards the cost of constructing the school house proposed to be constructed. A plan and estimate are wanted from the Executive Engineer, Shimoga Division.

A plan and estimate prepared by the Executive Engineer, Kadur Division is required by Government in their order no $\frac{13423}{2072026}$ of 18.4.28. * Includes the Contingent & D & W Charges.

This work was proposed to Government in 1897-8 in their order letter no: $\frac{2073}{252}$ of 1.4.28 and the estimate of Rs 1063 submitted for Govt sanction was not approved as Government thought that a building of the 2nd Model School Design would suffice for the school as proposed by the Inspector General in the last submitted with the Inspector General's Memorandum on the programme of school buildings. The people contributed Rs 250/- about 3 years ago towards the cost of the new building.

No	Original Repar	Name of work	Amount of Estimate	Probable appropriation for 1899-1900
4	Original	Constructing a building for the I Holi Day Holi School, Chikhanaver, Bangalore Taluk	—	New 800

6	oo	Constructing a building for the Holi the Holi school at Sravana Design Belagola, Channarayana Taluk	Rs 2920	1500
7	oo	Constructing a building for A Katcha the Holi school at building costing Rs 100 Hirisanora, Channarayana about Rs 200 Taluk	—	5400

Remarks

cont -

The strength of the school is 43. A building of the I design with a Verandah was entered in the general list Rs 26 was recovered by the sale of the old materials of the former school house. The school is now held in a temple which is not suitable for the school purpose. The people's contribution is expected to be Rs 150.

As the main building of the school and the old Headmasters quarters which are both State Funds buildings are given for the use of the school the new Kammada Prachising school may be paid for from the Village school fund. A plan and estimate have been called for.

The school is now held in a house belonging to the Jam Math. It is proposed to rebuild the house at a cost of 3000 Rs of which 750 will be met from the people's subscriptions and 750 Rs from the contribution of the Swami as per Government Order No 729-31 dated 17 December 27. Muzani 7 17 95 The plan & estimate have yet to be prepared. The strength of the school is 73 & the highest class maintained there is the IV.

A grant will be given towards the cost of the new Katcha building under construction.

Remarks

- Notes Contd
- The Headmaster points out that in the 31st Dec 97 there were 154 pupils in average attendance that the square area available in the school is 1060 sq ft and that an additional building is necessary for the school. An estimate prepared by the Executive Engineer at the request of the Deputy Inspector for a new building at this place was not accepted in this office as the cost was extravagant.
- The highest class is the V
- The school is now held in a temple which is unsuitable for the progress of the children. The Deputy Inspector says that the villagers are ready to contribute 200 Rs and recommends the erection of a building at a cost of Rs 750. The strength of the school is 57.
- The Deputy Inspector reports that the villagers have deposited 1000 in the Lohak Treasury at Bhannagare towards the erection of a new building. The strength of the school is 44 and a building of the I Design was put down in the General list of buildings.
- The Deputy Inspector recommends the erection of a building at an estimated cost of Rs 175 30 and reports that if 80 Rs be contributed by Government the villagers will carry out the work of the new construction. The strength of the school is 25. A building of the I Design with a verandah was put down for this school in the General list and the probable contribution by the people was shown there to be Rs 200.

Remarks

Rs 5000

The Amildar in his Zada to the Deputy Inspector, Bangalore states that the school is now held in the Ashukkhana, that the accommodation is not sufficient for the school and that the people have contributed Rs 50 towards the construction of the new building. The strength of the school is 30. A building of the I Design without a verandah was put down for this school in the General list of buildings.

The Deputy Inspector reports that the school is attended by 50 pupils, that the Holi school here is an important one and that the people have contributed Rs 150 towards the cost of the new instruction. The amount of the contribution is in deposit at the Chik Freasing, Chikaling. A building of the II Design was put down for this school in the General list of buildings.

The Patel of the village says that it is not convenient to hold the school. The Basanna Temple as it is frequented by serpents, & that one of the people's subscriptions amounting to Rs 41 he has handed Rs 40 of was advanced for the purchase of stones required for the new building. It has been stated that the people cannot pay any more subscriptions and that the materials now ready for the building are valued at Rs 33 & 0. The Patel promises to complete the school house if 4 Ankanams of 30 Rs is sanctioned by Government as a

The strength of the school is 40 and after accommodation is provided the number of pupils will increase

The number on the roll is 82 and average attendance 73. The Deputy Inspector proposes the new construction, the present building being utilised for the girls' school here & requests that a building to accommodate 100 boys may be erected. Two buildings are required in this village. The Kannada and Hindustani schools are now held in a rented building and the Ashurkhana which ^{are} not suitable for school purposes. The strength of the Kannada School is 37 and of the Hindustani School 27. Of the people's subscriptions of 120 Rs. a sum of Rs 171-9-6 was paid into the Treasury 6 Rs. was spent on purchasing the building and Rs 12-6-6 on clearing and levelling the site.

The strength is 57. The school was until lately held in stone mantapam belonging to the Shanbag Hampannayya. This building has been sold & is not available any more for the school. The Deputy Inspector reports that no suitable building is available in this village for the use of the school. The people have contributed 183 Rs towards the cost of the new construction. There are 73 names in the rolls & the average daily attendance is 59. The school is now held in a mud house occupied by the school, the Revenue Khadar and Police Station. The people have contributed 200 Rs towards the cost of building a new house which is very necessary.

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE

$\frac{3537}{11.5}$ 5 miles 7 ^{Mysore,} Bangalore 2nd October 1899

From

H J BHABHA Esq.,

Inspector General of Education in Mysore

To

The Secretary to the Government of ^{the} for
General and Revenue Dep^{ts},
Bangalore

SIR,

With reference to Order No 1945-46 dated
27 20 96 99,
11th August 1899, I have the honour to sub-
mit herewith the three marginally noted
detailed statements of appropriations for
the provision of Rs 40,000 made for
buildings in the Village School Fund
Budget of 1899-1900. [I regret to inform
you that as Mr Karve's designs and
estimates of standard village school
buildings have not yet been revised
and returned by the Chief Engineer,
I am unable to submit a list of new
village school buildings to be con-
structed according to these designs

- 1 Incomplete works
- 2 New works sanctioned by Govt and by the
Dep^{ts} for General and Revenue Dep^{ts},
1st July 1899.
- 3 New works not planned according to the standard designs

31
As soon as the Chief Engineer's reply is received an additional list of new buildings to be constructed according to the standard designs will be submitted]

I have the honour to be,
Sir,
Your most obedient servant,
H J Bhabha
Inspector General.

Village School Fund. —

From,

The Chief Engineer of Mysore

To,

The Inspector General of Education in Mysore

Sir,

Adverting to your letter No 170/31 dated 22nd August 1899 requesting to have the projects there forth forwarded for Village Schools revised with a view to reduce the cost to the lowest possible limits without lessening the amount of accommodation, I have the honor to forward copy of letter No 420 of the 14th instant from the Superintending Engineer, Eastern Circle, together with the modified plans and Estimates therewith received.

It will be seen from the comparative statement in para 2 of above letter that these modified estimates come to Rs 3316 less than Mr Farve's original estimates or Mr Farve's estimates by only Rs 1825.

3 Enclosures are returned

I have the honor to be,

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE,

No

5085
203 with 2 enclosures
Bangalore, 2nd December 1899

From

H J BHABHA, Esq

Inspector General of Education in Mysore

To

The Secretary to the Government of Mysore,
General and Revenue Departments

SIR

With reference to your docket 280
6292 of the 30th ultimo, I have the
honour to inform you that the total of the
appropriations for the three classes of work
referred to in my letter 280 3537 of the
2nd October 1899 comes to Rs 12,618
enclose a list marked A of five work
already sanctioned by Government in
April 1898 but not taken up for want
of funds or designs The total cost of
these works amounts to Rs 8595 A
building of the 2nd design proposed in
my letter 280 4607 of 11th 29th 1898 is estimated to cost
Rs 1068 I request that this build

15
may be sanctioned. A sum of Rs 1500/- is required to be reserved for minor work and repairs to be carried out during the remaining part of the current year. The amounts as given above come to Rs 23,781 altogether leaving a balance of Rs 16,219 out of the sanctioned allotment of 40,000 Rs for Buildings.

- 2 I beg to submit herewith a list marked B of select schools requiring new buildings according to the standard designs and these buildings will according to Mr Karve's revised estimates cost Rs 37,392. As there are hardly seven months left of this year, it is not possible to work out before the 30th June 1900 such a large sum as Rs 37,392. The works mentioned in para 1 will similarly not be fully executed before the end of the official year. Under these circumstances I request that all the new buildings named in List B may be sanctioned. The buildings remaining incomplete at the end of this year will be completed next year. In List B only those buildings have been mentioned for which the people have paid contributions

3 It must be stated here that Mr Karve's estimates do not include the usual DPM establishment charges at 10% of the estimated costs. If the works are carried out through the agency of the DPM the establishment charges will have to be added to the estimates. The establishment charges will be saved if the works are carried out departmentally by local contractors under the supervision of the Inspecting Officers. It should also be stated that the rates for the various items of a building work are not the same in all the Districts. Mr Karve's estimates should therefore be considered to be approximate. It will become necessary in many cases to propose supplemental estimates to meet variations in the rates.

I have the honour to be,
Sir,

Your most obedient servant,

H Bhatia
Inspector General

A

SERIAL NO	10

Expenditure of special grant on account of buildings will be distributed among the different classes of works as follows —

(I) Appropriations required for incomplete works	Rs 1565	As per table given in the statement recommended by the Govt. of the Madras Pres.
(II) — do — do — New works sanctioned for the current year	1523	
(III) Amount reserved for buildings that are not planned according to standard designs —	8930	
(IV) Appropriations required for buildings sanctioned last year but not taken in hand for want of funds or designs —	8595	As per table given in the statement of the Govt. of the Madras Pres. recommended by the Govt. of the Madras Pres.
(V) Amount reserved for minor works and repairs —	1500	
(VI) Appropriations required for the cyclone school (Srinivasapur Taluk) —	1068	
Total	23,781	
Balance available —	16,219	

(2) The forty-one works specified in Statement B appended to the second of the letters read above are sanctioned, but in making appropriations for the current year preference will be given to works for which contributions exceeding Rs 100 have been promised or collected, the balance available out of Rs 16,219, being

which the Igl would
accordingly prepare the

being appropriate for the
remaining works in the
order of their urgency. A
list of ^{proposed} appropriations ^{to be}
for the two classes of works
in question ^{should be} submitted
for the information of Govt

(3) The Igl states that 10%
of the Establishment charges
would be saved if the works
are carried out through
Contractors departmentally.
This proposal may be
given effect to on the clear
understanding that the
works are properly
supervised and carried
out according to plans
and Estimates

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE

No

$\frac{6436}{289}$ with 1 enclosure

Bangalore

January 1900 189

From

H. J. BHABHA Esq.,

Inspector General of Education in Mysore

To

The Secretary to the Government of Mysore,

General and Revenue Departments

SIR,

With reference to para 2 of Government order
No 7096 F₁ of the 20th December 1899 I have the honour
to forward herewith a list of building works for
which appropriations are required during the
current year. It will be seen from the list
that the works selected are those for which contribu-
tions exceeding Rs 100 have been collected or
promised and also a few other important
works required urgently for which it is not
possible to collect contributions from the villagers.
The twenty-three works are estimated to cost
Rs 26,588 and this ^{amount} is exclusive of the D P W
establishment charges. The agency through which
each of the works will have to be carried out
can be settled after the standard plans and

extranets are printed under the same number
with the DPA and the departmental respecting
officers. The appropriation required for each
of the selected works cannot be determined at
present but the total amount of expenditure
on these works will not exceed the available balance
of Rs 11 219 as shown in the Government's order
quoted above

I have the honour to be
Sir,
Your most obedient servant,
Haffiz-ur-Rahman
Inspector General

Village School Fund

From

H J BHABHA Esq,
Inspector General of Education in Mysore

To

The Secretary to the Government of Mysore.
General and Revenue Departments

SIR

With reference to Government Order No. 8921-2 of the 1st February 1900 dated 20-96 providing of a list of buildings to be newly constructed in accordance with the standard designs for Village school houses, I have the honour to inform you that the Deputy Inspector of Schools, Tumkur now reports that a building of the I Design for each of the Hobli Schools at Rampura, Maddur Taluk and at Dodgum, Gubbi Taluk is too small and that there being every prospect of the attendance increasing in the near future it will be necessary to extend the

~~Building~~ ^{Building} shortly if the 1st Design is adopted

I am satisfied that instead of buildings of the 1st Design ~~already~~ sanctioned for Rampura and Lodgum buildings of the II Design at an estimated cost of Rs 1068 each are required. As the plans and estimates of standard buildings for village schools were sanctioned, printed and circulated late in the year it is not possible to work out the balance of Rs 16,219 referred to in the Government order cited above.

Even if the II Design is adopted for Rampura and Lodgum there is no fear that the total amount of expenditure will exceed the balance of Rs 16,219 under these circumstances I request that Government may be pleased to order the adoption of the II Design for the village school houses for Rampura and Lodgum.

I have the honour to be,

Sir,

Your most obedient servant

H J Bhattacha

Inspector General
